This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. The Preface

COCKERHAM Church is situate in the Hundred of Lonsdale South, Lancashire. It is about six miles from Lancaster, five miles from Garstang, and one mile from the shore of Morecambe Bay. The remains of Cockersand Abbey are within three miles of the Church. The Church, dedicated to S. Michael, is known to have certainly existed in 1207 (see *Lancashire Fines*, pt. I., page 26, Lancashire and Cheshire Record Society). The Parish anciently comprised the townships of Cockerham, Forton, Ellel, Shireshead and Dolphinholme. Two Chapelries, Shireshead and Ellel—now forming separate Ecclesiastical districts—are almost as old in their foundation as the Mother Church. No separate Registers in either Chapelry exist for the period included in this volume. The earliest Register of Cockerham, which is here printed, embraces the period 1595—1657 inclusive. The volume consists of 136 leaves of parchment and is generally very well written, and much better preserved than the Rev. T. Widditt's lamentation (see facing

p. 1) would lead one to expect. With the exception of one or two entries the whole has been read with little difficulty. The volume measures 14 inches by 6 inches and is in millboard half-bound in parchment. No Episcopal transcripts of any portion of the Register now exist.

Our warmest thanks are due to the Venerable Archdeacon Clarke, M.A., Vicar of Cockerham, for the sympathetic interest he has shown in the production of the volume. Without the kind co-operation of Mrs Henry Brierley and our members, Mr Arrowsmith, Dr Hodder and Miss Wrigley, the task of careful transcribing, proof-reading, and indexing could not have been accomplished.

The Society's deepest gratitude is due to our member Mr Thomas Hall Winder for presenting this valuable volume to our Society at his sole expense.

Christian Names and Surnames.

Christenings	*pp.*	1—93	*inclusive.*
Marriages	„	94—120	„
Burials	„	121—195	„

Where a name has variants the Head-name has been selected which now exists or which most closely resembles the modern equivalent. All variants are separately Indexed with cross references to the Head-name.

Where a Surname has an *alias* each form of the Surname is Indexed under its initial letter.

The Christian names are, with some few exceptions, Indexed under their modern form—the first spelling of the name having generally been continued in connection with the same Surname.

Illegitimate children are Indexed under the Surnames of both Mother and putative Father.

"N.X.N." signifies "No Christian Name."

An Asterisk following a page number signifies that that combination of Christian and Surname occurs more than once on the page number asterisked.
